**Subject:** Draft Agenda for Bunker Hill Mine Meeting 9/29 & 30 -Reply

As I anticipated I will not have time to attend the meeting in Spokane. I should be able to review the sludge memo before then and give you comments - I will let you know ASAP if things change. I talked to Ben a bit about the hydrology memo. He felt that he did a thorough review. He is better in hydrology than I so I feel like I do not need to comment on that document. However, I will give it a quick read so that I remain current with what is happening on that front since the hydrology and treatability work will eventually have to be meshed to develop an overall site water management plan. And, if I have any comments based on this quick read, I will let you know. I should be able to read it this week.

- Patty
